TOWN OF WESTON

MASSACHUSETTS

RECORDS

OF THE

1st

FIRST PRECINCT, 1746-1754

AND OF THE

TOWN, 1754-1803

BOSTON

PREFACE.

By vote of the General Court in 1746, the north part of Weston was united with parts of Lexington and Concord to form what was called the second precinct. The remaining part of Weston was then called the first precinct, and records of the same were kept from 1746 to 1754. At that time, the second precinct was incorporated as a town under the name of Lincoln, and the records of the first precinct were no longer kept separate from those of the town. Those of the latter, after 1754, were kept in what had been the precinct book.

1940083

This book, containing precinct records from 1746 to 1754, and town records from 1754 through 1803, is what is now presented in printed form, agreeably to a vote of the town passed March 28, 1892.

Great pains have been taken to have an accurate copy. Some errors doubtless occur; for it has not always been easy to decide just what the Clerk intended. Although it has been the intention to reproduce the original as closely as possible, a few changes have been intentionally made. Catch words, found at the foot of a few pages, have been omitted, as they could not serve the same purpose on the printed page. A short dash after an abbreviation has been printed as a period. Initial J in proper names has never been printed I, although sometimes written with that character. Small m with a circumflex over it, to indicate that the letter is doubled, has been printed mm. Obscure points in the text have been explained and errors pointed out by notes enclosed in brackets and enclosed in the body of the work. A "coot for Benjamin Stimson," page 275, has been explained in the errata. That "coat" was intended is evident, as the bill is still extant. On page 500, the *title* of Eliakim Morse crept in from the Dr. of his bill for lead and gold leaf.

Three interesting papers have been added in an appendix. Two of these have reference to the bounds of the Town Land near the Meeting-house, and show that a quit-claim deed of the land was given a hundred years ago.

The value of the book has been much increased by adding an Index of names and also one of subjects. By this means the history of the

town for the period covered, a term of exactly fifty years, is outlined and made easily accessible.

In arranging the names, care has been taken to gather together, as far as possible, all allusions to the same person, and to supply the first name when lacking, as in the case of several schoolmasters and others.

It is to be hoped that further interest in the records of the town may be awakened, and that we may eventually have in print all that remains to us of the first one hundred and twenty-five years of our history.

To the Church and Congregation in Weston

GENTLEMEN, — It is Some Considerable time Since you Were pleased to honour me With an Invitation to Settle With you in the ministry, Which Was Back'd With a Desire that my Resolution of the matter might be as Speedy as Was Consistant

With Prudence: Wherefore Gen^tm after my Hearty thanks for the favourable oppinion you have Conceived of my Labours, I Would Inform you, that altho your Circumstances Seemed to Call for a Sudden answer, yet the Work you Call me to Engage in (as it appears to me) is of Such moment; that the most mature consideration Cant be more than it Deserves: I have therefore Been asking that Wisdom from above that is profitable to Direct: and I have Kept you in Suspence the Longer Because in the multitude of Councelers there is safety: and am Now Ready to Inform you that the Vnanimity of your Call appears matter of Great Encouragemint to me and affords a happy prospect of the good Success of my ministry: and notwithstanding your Circumstances are Something peculiar: yet I hope the Consideration of Duty would be more than a Counterballence for all the Difficulties which at present appear: But Gen^tm you are all I presume Seinsible of the Great Inconvenience and Danger there is in a ministers Being Dependent upon the favour of his people he must needs then have a Greate temptation to unfaithfullness: Least otherwise he hurt his private Intrest: Wherefore as I propose to Devote my self (by the Grace of Heaven) to the Service of that peoples Souls Whose minister I am: So I Desire that if I Sow unto them Spiritual things: it may not be thought a Great thing (by them) If I So far Reap of Their Carnal things as to Render my Life Comfortable: and Now Gen^tm Notwithstanding your proposals as to the Nominal Sums Seems to be Considerable: yet who is there among yourseleves, Were He to Estimate What he Spends in his family, that would not find that ware he to purchase all by the penny, it would Cost him more than Sixty Six pounds thirteen Shillings and four pence per annum: Gen^tm upon Consideration that you propose this without any privileges or perquisites Which are common in other towns: I mean with Respect to a personage, or any Donations in Lands or Buildings or with Regard to wood: and upon Consideration; that yours must Needs be a place of Great Expence Because neare a Great Road: my Best freinds in as well as out of the ministry: assure me from their own Exspirience that I Can by no means Live with your offers: and now upon the whole.

Gen^tm^ I think that nothing Short of the addition of thirty Cords of wood: and in Some other way a valuable Consideration more to my yearly Salary can be Sufficent Encouragement for my acceptance of your Call

[17.] I conclude wishing you may have the Divine presence and Conduct in all your proceedings and Intreating that whether these proposals are agreeable or Disagreeable they may by no means Break our frendship: Let me have the Improvement of your Intrests at the throne of Grace for me: that in whatever Capacity I need therein I may have Success: Assure your Seleves that howevr I may be wanting in other Regards: yet (with Dependence upon the Grace of heaven) you never Shall have Reason to think: but that your Best Intrest and welfare Lies near my Heart: In token whereof I am now Ready to Subscribe my self your friend and Well wisher

Gent^m^ Its plain I Refered it to your Judgement What was a Valeuable Consideration: But yet I am free to aknowledge my meaning was about Seven pounds: But by no means if it was inconsistant with peace and Love: the only Reason of my mentioning of it: was — Because I fear^d^ upon the account I have had from those that have Experienced that Less Would not Do: But Gen^tm^ Since the providence of God Seems to Invite me amonge you, I Dare not Deny your Request: Wherefore upon the Whole I have Resolved, that With Dependence upon the Grace of God for my assistance and Direction and Depending upon your favour and Good will Which I assure you; I prefer to Sallery: I Declare a herarty acceptance of your Call

In Congress July 4th 1776 A Declaration by the Representatives of the UNITED STATES of AMERICA In General Congress Assembled

When in Course of human Events, it becomes necessary for one People to dissolve the political Bonds which have connected them with another and to assume among the Powers of the Earth, the seperate & equal Station to which the Laws of Nature and of Natures God entitle them a decent Respect to the Opinions of Mankind requires that they should declare the Course which impel them to the Seperation.

We hold these truths to be Self-evident, that all Men are created equal, that they are endowed by their Creator with certain unalieable Rights, that among these are Life Liberty, and the Pursuit of Happiness: — That to secure these Rights, Governments are instituted among Men, deriving their just Powers from the consent of the Governed, that whenever any Form of Government becomes destructive of these Ends, it is the Right of the People to alter or abolish it, and to institute new Government, laying its foundation on such Principles and organizing

its Powers in such Form, as to them shall seem most likely to effect their Safety & Hapines. Prudence, indeed will dictate that Governments long established should not be changed for light & transient Causes; and accordingly all Experience hath shewn, that Mankind are more disposed to suffer, while Evils are sufferable, than to right themselves by abolishing the Forms to which they are accustomed. But when a long Train of Abuses & Usurpations, pursuing invariably the same Object, evinces a Design to reduce them under absolute Despotism, it is their Right, it is their Duty, to throw off such Government, and to provide new Guards for their future Security. Such has been the patient Sufferants of these Colonies; and such is now the Necessity which constrains them to alter their former Systems of Governent. The History of the present King of Great Britain is a Hisory of repeated Injuries & Usurpations, all having in direct Object an Establishment of an absolute Tyranny over these States. To prove this let facts be submitted to a candid World.

He has refused his assent to Laws, the most wholesome and necessary for the publick Good

He has forbidden his Governers to pass Laws of immediate and pressing Importants, unless suspended in their Operation until his Assent should be obtained; and when so suspended he has utterly neglected to attend to them.

He has refused to pass other Laws for the Accommodation of Large Districts of People, unless those People would relinquish the Right of Representation in the Legislature a Right inestimable to them & formidable to TYRANTS only.

He has called together Legislative Bodies at Places unsual, uncomfortable and distant from the Depository of their public Records, for the sole purpose of fatiguing them into Compliance with his Measures.

[131.] He has dissolved Representative Houses repeatedly, for opposing with MANLY FIRMNESS his Invasions on the Rights of the People.

He has refused for a long Time, after such Dissolutions, to cause others to be elected; whereby the Legislative Powers incapable of Annihilation have returned to the people at large

for their Exercise; the State remaining in the mean Time exposed to all the Dangers of Invasion from without and Convulsions within.

He has endeavoured to prevent the Population of these States; for that Purpose obstructing the Laws for Naturalization of Foreigners; refusing to pass others to encourage their Migrations hither, and raising the Conditions of new Appropriations of Lands.

He has obstructed the Administration of Justice by refusing his Assent to Laws for establishing Judiciary Powers.

He has made judges dependent on his Will alone, for the Tenure of their Offices and the Amount and Payment of their Salaries.

He has erected a multitude of New Officers, & Sent hither Swarms of Officers to harrass our People and eat out their Substance.

He has kept among us, in times of Peace, Standing Armies, without the Consent of our Legislatures.

He has affected to render the Military independent of & Superior to the Civil Power.

He has combined with others to Subject as to a Jurisdiction foreign to our Consitution, & Unacknowledged by our Laws: giving his Assent to their acts of pretended Legislation

For quartering large Bodies of armed Troops among us.

For protecting them by a Mock Trial, from Punishment for any Murders which they should commit on the Inhabitants of these States:

For cuting off our Trade with all parts of the World:

For impossing Taxes on us without our consent:

For depriving us, in many Cases, of the benefit Trial by Jury:

For transporting us beyound Seas to be tried for pretended Offences:

For abolishing the Free System of English Laws in neighbouring Province, establishing therein an arbitrary Government, and enlarging its Boundaries so as to render it at once an Example and fit Instrument for introducing the Same absolute Rule into these Colonies.

For taking away our Charters abolishing our most valuable Laws and altering fundamentally the Forms of our Governments:

For suspending our own Legislatures, and declareing themselves invested with Power to legislate for us in all Cases whatsoever.

He has abdicated Government here, by declareing us out of his Protection and waging War against us.

He has plundered our Seas, ravaged our Coasts burnt our Towns and destroyed the Lives of our People.

He is at this time transporting larg Armies of foreign Mercenaries to compleat the works of Death, Desolation and TYRANNY already [132.] begun with Circumstances of Cruelty & Perfidy scarsely paralleled in the most barbarous Ages, and totally unworthy the Head of a civilized Nation.

He has constrained our Fellow Citizens taken Captive on the high Seas, to bear Armes against their Country; to become the Executioners of their Friends and Brethren or to fall themselves by their Hands.

He has excited Domestic Insurrections amongst us, and has endeavoured to bring on the Inhabitants of our Frountiers the Merciless Indian Savages, whose known Rule of Warfare, is an undistinguished Destruction of all Ages Sexes and Conditions.

In every Stage of these Oppressions we have Petitioned for Redress, in the most humble Terms: Our repeted Petitions have been answered only by repeted Injury! — A Prince whose Character is thus marked by every act which may define a TYRANT, is unfit to be the Ruler of a FREE PEOPLE!

Nor have we been wanting in Attention to our British Brothers. We have warned them from Time to Time of Attempts by their Legislature to extend on unwarrantable Jurisdiction over us. We have reminded them of the Circumstances of our Emigration and Settlement here. We have appealed to their native Justice and Magnanimity and we have conjured them by the Ties of our common Kindred to disavow those Usurpations which would inevitable interrupt our Connexions and Correspondence. They, too have been deaf to the Voice of Justice and of Consanguinity. We must, therefore asquiesce in the Necessity which denounces our Separation, and hold them as we hold the rest of Mankind Enemies in War; in Peace, Friends. We therefore, the REPRESENTATIVES of the UNITED

States of America in General Congress assembled, appealing to the Supreme Judge of the World for the Rectitide of our Intentions do, in the Name and by the Authority of the good People of these Colonies solemnly Publish and Declare, That these United Colonies are and of Right ought to be Free and Independants States; that they are absolved from all Allegiance to the British Crown; and that all political Connexion between them and these States of Great Britain, is, and ought to be totally dissolved; and that as Free and Independent States, they have full Power to levy War, conlude Peace, contract Alliances, establish Commerce, and to do all other Acts and things which Independent States may of Right do. And for the Support of this Declaration, with a firm Reliance on the Protection of Divine Providence, we mutually pledge to each other our Lives, our Fortunes and our Sacred Honor.

Signed by Order and in Behalf of the Congress

John Hancock, *President*

[133.] In Council, July 17th, 1776.

Ordered, That the Declaration of Independence be printed; and a Copy sent to the Ministers of each Parish, of every Denomination within this State; and that they severally be required to read the same to their Respective Congregation, as soon as divine Service is ended, in the Afternoon, on the first Lords Day after they shall have received it: — And after such Publication thereof; to deliver the said Declaration to the Clerks of their several Towns or Districts; who are hereby required to record the same in their respective Town or Didtrict Books there to remain as a perpetual Memorial thereof.

In the Name, and by Order of the Council

Meet according to Adjournment — and m^r. Kendal came in to meeting and exhibitid his Answere which is as followeth viz —

My Christian Friends

You having given me a call to Settle with You in the Gospel Ministry, may justly expect that I should consider it in a religious view, and give such an answere as may Appear to me to be Consistant with my Duty — my Answer is Important to both you and myself, and to Heaven have I looked for Direction, and have earnestly desired to know wherein my Duty consisted, with a Disposition to conduct accordingly: I have likewise used the Ordinary means for Obtaining Direction, by Consulting many Friends, whose Advice ought, in such cases, to be taken and well considered,— The first thing to be Attended in the call is the Uninimity of the People, this is not so great as I could wish, Several whose Friendship would afford me peculiar Satisfaction, are opposed to my Settlement, But, having conversed with the Majority of them, I find that thier objections are mostly founded upon Missinformations and wrong Apprehentions, with respect to those things to which they Object. and considering tis not probable the Town will be better united in the choice of another, I can by no means Suppose it to be my Duty to give a Negative Answer, because some worthy men have not given thier votes in favour of me, But I am Sorry to Say, that the measures Taken by some Among the Nays, do, in some Degree lay me under a Nessessety to Accept your call,— and were there nothing farther to be considered my answer would be Affirmative, But it is no less a ministers Duty to Exercise Prudence about those things that lend to his Comfort and Support, while he is engaged in his ministry, than it is for any Denomination of men to Provide for the Comfort of themselves and Families — [245.] and as the Sallery Proposed is thought by all my Advisers, and by myself, Insufficient for the Support of a Minister, and as the wood offered will not, in my Opinion, and the Opinion of those who judge from Experience be Sufficient to maintain the fires that are Nessessary in a Family I

must Decline Accepting your Invitation upon the Terms offered, your Offers to being less than, for years past you found Nessessary to the Support of your late worthy Pastor, you can hardly Suppose, that I should be willing to accept the call under the present Circumstances, I do not wish to Burden the People more than to enable me to do my Duty among them. Nor would I Dispute the generosity of this People more than that of any others but those that better know than I do what is Nessessary to Support a Family, do say that what you Offer is not Sufficient, and therefore you will receive this as a *Negative* Answer, unless such Alterations with respect to my Support, be made as may render it expedient for me to accept your Inviation, this Answer wou[d]. have been given some months ago, had it not been for the Encouragement given me, that the Offer would be made better at the renewall of my call, so that you will not blame me for keeping you so long in Suspence — I am with Love and Respect your

Sincere Friend and well wisher —

Whereupon M[r]. Kendall gave his answer in the affirmative, and relinquished the Ten Pounds and the five Coards of fire wood for three years next Succeeding his Ordination — upon which the Town Voted him thier Sincere thanks —

M[r] Kendalls final Answer is as followeth Viz:

My Christian Fathers, Brothers and Friends

when you gave me a call to Settle with you, I do Cordially Accept your Invitation: and as the Times are Peculiarly Difficult by reason of very heavy Taxes, I do freely give up what you have now Added for three years, so that untill after the three years are expired, I shall expect to recive no more than Eighty Pounds and fifteen Cords of wood Annually — I Subscribe my self your

A report of a Committee Concerning Y^E. Constatution & Form of Goverment. 1778.

May 24th 1778. We the Committee of Weston chosen & appointed on the 18th of this Instant to take into our deliberate Consideration & report to said Town at the term of the ajournment of a meeting held at Weston afors^d. have agreeable to the purpose of our Election assembled in this Town; & deliberately read over; and considered the Convention Plan of Goverment, proposed to be adopted by this State of the Massachusetts Bay. and then ajourned to the 30th of May. when we again Meet at M^r. Benj: Peirce's in this Place & further consider'd the same & upon our further deliberation; voted our disapprobation of the s^d. Convention Plan of Goverment.

2ly Voted to report this our disapprobation to this Town of Weston; & the Reasons which Governed us the Committee in this our disapprobation of the said Convention Plan of Goverment: Which are as followeth

the first Reason of our disapprobation is founded in the 5th Article Wherein is manifested an exception against Negroes, Indians & Molattoes voting for a Representitive or Representitives. which we Esteem to be an Infringment upon the Right of such Subjects; as we Judge it ought to be the priviledge of every such free man & who is of property, to vote for a Representitive.

2ly the Second Reason we your Committee conceive is founded in the Impropriety of Settleling & fixing on a Constitution of Goverment in this State afors^d. in the Present Situation of our Public affairs; being Still Involved in the Convultions of War, & as so many worthy members belonging to this State are necessarily out of the State, who ought to have a voice in this affair.

3ly another Reason of your Committee's disapprobation of said Constitution of Goverment, is because the said Constitution is not connected with a declaratory Bill of Rights, which we esteem to be the priviledge of a free people, & which ought to have been the ground and foundation; upon which a Constitution of Goverment should be formed & built; & whereby the Rights, & Priviledges, of this people of the Massachusetts State might be known; & established, to the view both of the Present & future generation, of the good people of this State forever.
